Now it's even easier to refer us to your family, friends and co-workers. Our Care to Share cards are now the size of business cards so that you can conveniently slip them into your wallet. And don't worry, that's the only thing that is smaller - you will still receive a \$100 referral credit to your account for each new patient that you send to our office.

## A WORD FROM DR. STEWART

### Sleep Apnea Help

It has been more than a year now since I have been informing and treating patients for sleep apnea and snoring problems. I am excited to say that the snoring cessation appliances we have made for those patients who have needed them have worked really well.

I am always skeptical to new things, but I can say that these can be a miracle for someone who suffers from snoring and is subsequently not sleeping well. If you, or someone you know, have this problem, are looking for help, please get a consult with me before you resort to surgery or a Cpap machine.

For more information about the appliance we use, please check out this website: [tappatient.amisleep.com](http://tappatient.amisleep.com).

## SSD Success Stories - "What a Wonderful Surprise!"

*"Thank you so much for taking care of my chipped front tooth. When I stopped by your office to drop off a donation to your food "campaign" I certainly didn't expect on the spot attention to this minor issue, much less having it done free of charge. My intention was to mention my situation to Summer while I was there, hopefully get an estimate of cost and, if within my budget, make an appointment to have it fixed before my next scheduled cleaning in December. I didn't want to wait that long with a flaw in my smile! What a wonderful surprise! I just wanted you to know how very much I appreciate this gesture. Since Invisalign, I admit that I have become quite vain about my teeth, and I suppose this is somewhat ridiculous at my age. However, after receiving many compliments, I do have a reputation to uphold!"*
